- To tekočino pogosto najdemo v kuhinji.
- Ima močan vonj.
- Uporablja se za boljši okus hrane, na primer v solati.
- Lahko se uporablja tudi za čiščenje.
- Če to tekočino zmešamo s sodo bikarbono, se zmes peni in ustvari veliko mehurčkov. To je kemijska reakcija.
- Poznamo več vrst, na primer beli ali tak, ki je narejen iz jabolk.
